

PHYSICAL THERAPY SERVICES

The Rehabilitation Department at JTDMMH has a simple goal: To promote injury prevention and rapid recovery by restoring our patients to their fullest possible function in the least amount of time.

Whether you are recovering from an illness or injury, would like to learn more about safety, or are concerned about a family member's ability to function, we are here for you!

OUR MISSION

is to always provide
 – now and in the future –
 high-quality, low-cost, sensitive healthcare
 that is properly housed, equipped and staffed
 to meet the primary, acute and rehabilitative health
 service needs of the Grand Lake Region.

PHYSICAL THERAPY

Physical Therapy is dedicated to evaluating and treating patients with musculoskeletal, neurological, and developmental problems.

Once referred to physical therapy, each patient is evaluated by a licensed physical therapist and an individualized treatment plan is developed. The continuation of this plan is closely monitored by the evaluating physical therapist along with a physical therapist assistant with changes made as needed to enhance comfort and progress.

Our therapists utilize a wide variety of modalities and activities to assist in returning each patient to their optimal function. Throughout the treatments, patients are educated on their injuries or disabilities and Home Exercise Programs are developed to accelerate the healing process and return to independence.

PHYSICAL THERAPY OFFERS A WIDE VARIETY OF SERVICES INCLUDING:

- Industrial Rehabilitation
 - Post Injury Intervention
 - Functional Capacity Evaluation
 - Injury Prevention
 - Work Assessment
 - Back Evaluations
 - Work Reconditioning
 - On-site Staff Education
- Aquatic Therapy
- Orthopedic Injury Rehabilitation
- Acute Injury Rehabilitation
- Pediatric Therapy
- Neurological Rehabilitation
- Geriatric Rehabilitation
- Wound Care
- Home Health
