

Advanced Screening. Stronger Protection.

PROUDLY OFFERING 3D MAMMOGRAPHY

The Women's Imaging Center at Grand Lake Health System

This leading-edge technology is designed for your comfort and peace of mind, with calming lighting and a gentle, rounded shape that helps create a more relaxed experience—while putting you in the best position for accurate, effective care.

Self-Request Eligibility Requirements

- Female, 40 years of age or older at the time of the screening
- Asymptomatic (have no current breast complaints)
- No personal history of breast cancer
- No breast implants

Take Charge of Your Health

Women who meet screening criteria can now schedule a mammogram at the Women's Imaging Center—no doctor's order required.

This program was created to give you easier access to screenings that can detect breast cancer at its earliest and most treatable stages – increasing your chances of survival should cancer be found.

Benefits of 3D Mammography

- More accurate detection
- Reduces unnecessary call-backs
- Improves accuracy in dense breast tissue
- Earlier diagnosis and peace of mind

Early Detection Matters

- Schedule yearly mammography screenings
- See your healthcare provider for annual clinical breast exams
- Perform monthly self-exams at home
